

PRAJAKTA SAKHARE

Full-Stack Developer (React.js | Node.js)

+91 9665888349 | Email: sakhareprajakta2@gmail.com | Pune, Maharashtra, India | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building responsive, production-grade applications with React.js, Redux Toolkit, and modern JavaScript (ES6+), backed is integrated in Node.js/Express.js. Delivered REST APIs, JWT/RBAC-secured authentication flows, UI/UX-focused dashboards, with deployments across Vercel, AWS, and VPS environments. Experienced in relational (MySQL) and NoSQL (MongoDB) database design, performance optimization (caching, code splitting, image optimization), and cross-functional collaboration. Actively integrates AI-assisted development tools into daily workflows to delivery and improve code quality.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR, SSG, ISR), Redux Toolkit, Context API , Material UI, JavaScript (ES6+), HTML5, CSS3, JSON, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST API, JWT, RBAC, Middleware Architecture.

Databases: MySQL, MongoDB, Query Optimization

Cloud & Tools : Git, GitHub, Postman, VS Code, AWS, VPS, Vercel, Agile/Scrum Code Reviews

AI-Assisted Development: AI- integration application features (Auto-suggestion, smart prioritization, deadline logic); day-to-day use of AI coding assistants to accelerate delivery

PROFESSIONAL EXPERIENCE

Web Developer (Frontend | Backend)

Nov 2023 – Nov 2025

Vetrina Healthcare Pvt. Ltd | Pune, Maharashtra | Full-Time

- Developed and maintained **responsive web applications** using **React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, and jQuery**, improving cross-device usability and reducing UI-related issues by approximately **25%**.
- Built **reusable React components** using Functional Components, React Hooks, Context API, and Redux, reducing repetitive frontend development effort by approximately **30%**.
- Developed backend APIs using **Node.js and Express.js** and integrated **MongoDB/MySQL**, improving data-management workflow and application reliability.
- Integrated **RESTful APIs using AJAX, Fetch, and Axios**, optimizing asynchronous data handling and reducing unnecessary page reloads by approximately **30%**.
- Implemented **CRUD operations, dynamic forms, validation, search, filtering, pagination, and role-based functionality**, improving feature delivery efficiency by approximately **25%**.
- Used **Git/GitHub** for version control and deployed applications using **AWS, and VPS**, supporting reliable application releases and maintenance.

KEY PROJECTS

AI-Based Task Management

React.js| JavaScript| Node.js| Express.js| MongoDB| REST APIs| JWT| Gemini AI API| HTML5| CSS3.

- Built Ai task manager with AI-driven task prioritization, JWT-secured auth, and a real-time, Redux-powered dashboard for productivity tracking.
- Built a visual task board with task creation, assignment, priority, deadline, status tracking, update, and delete functionality.
- Integrated Gemini AI API to generate task suggestions and provide estimated task completion time based on task details

Advanced Job Application Automation for Workday

React.js | JavaScript | Chrome Extension MV3 | Node.js | Express.js | MongoDB | REST APIs

- Developed a browser-based job application automation system using a Manifest V3 Chrome Extension to assist with completing complex, multi-step Workday application forms.
- Engineered dynamic field-detection and label/alias mapping logic to identify and map candidate information across changing field labels, attributes, and DOM structures.
- Built a React.js profile management interface with Node.js/Express.js REST APIs and MongoDB to securely manage and retrieve reusable candidate profile information.

EDUCATION

M.Sc. Computer Science: Rajarshi Shahu Mahavidyalaya (Autonomous), Latur — CGPA 8.20/10, 2022

B.Sc. Science: Shri Kumarswami Mahavidyalaya, Ausa — CGPA 9.19/10, 2020

CERTIFICATIONS

- Full Stack Java Developer (2023)
- Unlocking the Power of JavaScript (2026)
