PROFESSIONAL SUMMARY

Web Developer with 2+ years of experience building responsive, production-grade web applications with React.js on the frontend and Node.js/Express.js on the backend — the same JavaScript foundation is built on. Comfortable using AI-assisted coding workflows to development, RESTful APIs, and deploy on Vercel/AWS/VPS. Strong for clean, intuitive UI/UX, RBAC and JWT authentication, and database design across MySQL and MongoDB. Quick to pick up new technologies and AI tooling.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Bootstrap, Responsive Web Design, UI/UX-focused development

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Role-Based Access Control, Middleware Architecture

AI-Assisted Development: Experience integrating AI-driven features into applications (smart prioritization, deadline logic); actively building fluency with AI coding assistants to accelerate delivery

Databases: MySQL, MongoDB, Database Design, Query Optimization

Cloud & Tools: Vercel, AWS, VPS, Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Web Developer — Vetrina Healthcare Pvt. Ltd.

Nov 2023 – Nov 2025

Pune, Maharashtra

- Designed and developed responsive web applications using React.js and Node.js/Express.js; managed deployments on Vercel, AWS, and VPS servers.
- Built scalable REST APIs with clean, modular architecture; improved performance through caching, image optimization, and code splitting.
- Collaborated on AI integration and JWT authentication features, contributing to code reviews and cross-functional coordination in an agile team.
- Developed and consumed RESTful APIs integrated with SQL (MySQL) and NoSQL (MongoDB) databases for efficient data retrieval and processing.

PROJECTS

AI Task Management System —

- Built a full-stack AI task manager (React.js, Node.js, MongoDB) with smart, AI-driven task prioritization, JWT auth, and a real-time Redux-powered dashboard.
- Designed secure RESTful APIs with role-based access control and AI-driven deadline reminder logic to boost user productivity.
- Designed a responsive, UI/UX-focused real-time dashboard for task tracking, priority visualization, and productivity analytics.

Online Feedback System for Private Training Institutes —

- Developed a full-stack feedback platform (HTML/CSS/JSP + Java Servlets + MySQL) with RBAC for admin, student, and instructor roles.
- Implemented feedback submission and centralized data management, replacing manual paper-based processes.
- Designed and managed a relational database schema in MySQL for structured feedback storage and reporting.

CERTIFICATIONS

- Full Stack Java Developer Certification — Mar 2023
- Unlocking the Power of JavaScript — May 2026
- Full Stack Web Development --- Aug 2026

EDUCATION

M.Sc. Computer Science — Rajarshi Shahu Mahavidyalaya (Autonomous), Latur | CGPA: 8.20/10 | 2022

B.Sc. Science — Shri Kumarswami Mahavidyalaya, Ausa | CGPA: 9.19/10 | 2020
